GENERAL REVOLUTIONARY ACTIVITIES-  
LATIN AMERICA

A source, whose reliability has not been tested, furnished information on May 29, 1959 regarding revolutionary activity in Latin America. According to this source most of the current unrest in Latin American countries seems to arise from the believed exploitation and discrimination of the United Fruit Company. The anti-American feeling is further increased by the belief that the U.S. representatives (consuls, etc) openly side with the disliked forces while continuing to remain aloof as far as the general population is concerned.

According to the source there is a great difference in degree of agreement between the various groups as to the policies which each wishes to follow, however, they are "solidly joined" for the purpose of overthrowing the specified governments and foster their anti-American attitudes. While most of them will not seek Russian aid in their plans, many more are quietly seeking such aid. It appears to be a question of trying to get Russian support in achieving their goals and then go out on their own. These groups have a complete plan of operation. The ultimate goal is the overthrow of the Franco Government in Spain.

According to the source the following are listed for revolutionary overthrow of the present government:

Nicaragua - SOMOSA

Paraguay - STROSSNER

Haiti - DUVALIER
